The Growth Coach
Terry Bieberly
P.O. Box 356
Colwich, KS 67030

Dear Terry,

I had to write you to tell you how excited I am about "The Growth Coach" program.

The concepts learned during just the first session have given me the confidence to begin thinking like a CEO. Perhaps the most difficult challenge facing all business owners is obtaining an objective appraisal of our strengths and weaknesses, and then using that information to provide a customized 90 day strategic plan for achieving our business and personal goals.

Your straight-forward step-by-step process walked me through the necessary stages to look at myself as a business owner and determine what is working and what is broken. Your process helped me develop a strategic plan which has already produced measureable results in my business. I was so excited after the workshop that I shared my strategic planner with my husband.

For the first time in years I spent the day focusing on myself. Not just personally, but professionally. Like most of us I spend too much time worrying and stressing over the little things, and not enough time focusing my energy and talents on how to be more efficient and effective. Thank you for your one-on-one coaching. Your accountability sessions help me stay on plan and work toward my goal of balancing my business and personal life.

I would highly recommend The Growth Coach program to anyone interested in finding a way to clearly focus on their goals and live a more balanced life.

Sincerely,

Michelle Riggs
Owner

PS: The group of like-minded professionals to help you is a great networking and motivational platform to have!
